Erreichbar ANY TIME
Reachable AVAILABLE!

The Repac sales representatives offer consulting and training for your employees. They are available for personal support in your shop on a regular base. Our Service-Team helps to prepare the Repac modules in your shop - for a professional presentation of our products! The Sales and Service Centre is always available for your requests: via mail, fax or on the phone. In addition to our sales representatives we offer technical support by our application engineer.

Rüdiger Timm and Andree Kube, executive board

Revolutionär REPAC SETS TRENDS!
Revolutionary

We inspire the German and international specialists at trade fairs with always new and innovative ideas to give floors and rooms an exclusive frame.

Produktion WE MANUFACTURE IN
Production GEHRDEN / GERMANY

Our products - „Made in Germany“ - are up to date and meet the current market trends. With our profiles and skirting rails we have the aspiration to give rooms and flooring an exclusive frame - for a better room atmosphere! We use our long-term experience for your satisfaction.

Logistik NATIONWIDE
Logistics WITHIN 48 HOURS!

Approx. 20 trucks per week arrive and deliver the required materials. The logistic, all Made in Germany, covers a storage area with 16.500 m². The area is divided into two locations in Hanover and Gehrden. Repac requires an optimally operating logistics department for the 2.700 shipped items per month.

Anders & Clever WE ARE DIFFERENT
Different & Clever - WE ARE BETTER!

Which products are best suited for your room? How to implement your ideas? Are you curious about us? We show you the way to more time-saving and purchasing benefits.

Acoustic-insulation-underlays

Acoustic Boards • basic • anti-slip • hydro-tec
TOP performance in every application area

Acoustic Board Green Lignin hydro-tec

Our universal Acoustic Board Green Lignin for the floating installation of vinyl-, laminate-, cork and design flooring are now available with water-repellent function. The hydro-tec technology protects against rising damp from the subfloor.

GREEN LIGNIN hydro-tec
ROOM & IMPACT SOUND INSULATION WITH HYDRO-TEC TECHNOLOGY

 GREEN LIGNIN HYDRO-TEC: WITH NEW WATER-REPELLENT FUNCTION
 GREEN LIGNIN hydro-tec for the increased requirements of your floor. Biopolymer with water-repellent hydro-tec technology - made of natural main elements, manufactured in a specially developed, sustainable production method.

Acoustic Board Green Lignin anti slip

The innovative acoustic panel is now available in a new version with an anti-slip coating. It is especially suitable for the floating installation of vinyl and design flooring with a thickness of up to 5 mm. The unique anti-slip coating protects the planks against slipping. The underlay protects the click connection of the top covering effectively against damages. It has excellent acoustic properties in the impact sound reduction.

Acoustic Board Green Lignin basic

Universally for floating floors
 For all Acoustic Boards: No height offset because of the material thickness of only 1,8 mm. Best marking possibilities with pencil and ruler. Simple to cut by scoring and breaking. The products are suitable for laying on underfloor heatings and resemble a slight unevenness of the subfloor. They are lightweight and because of the dimensions very easy to handle.

Acoustic-insulations-underlays of Repac reduce impact and footfall sound insulation, stabilize, provide moisture protection, support thermal insulation and reduce unevenness.

Acoustic Performance -
 Particularly lightweight underlay with very good impact and footfall sound insulation.

Smart Floor -
 A clever underlay - flat, stable, professionally, to walk on immediately.

mFLOR Floorings

Authentic LOCK • Top 60 Display

Authentic LOCK Country Oak - naturally, active, authentic.

are authentic floorings, produced via „Register imprint“, with exactly and carefully coordinated decor and film layers. Produced via double film process two film layers instead of one are used and 16 different boards are created. This detail is responsible for the vitality of the country-style decors. The elegant matt surface completes the perfectly natural look. The Country Oak collection features 5 warm oak floorings.
